Ostomy Support Group to meet Feb. 9

FRANKLIN, TENN. ó Members of Williamson Medical Center's Ostomy Support Group will learn about comfortable, secure and low-profile products on the market during its monthly meeting Wednesday, Feb. 9.

The Ostomy Support Group is designed for those who have or will have an intestinal or urinary diversion. Group participants discuss topics of interest to ostomates and their families, and the sessions provide a safe environment for discussing concerns.

The featured speaker for the February meeting will be Nick Gritzai Jr., marketing manager for Cymed Ostomy Pouching Systems in Berkeley, Calif. He will bring product samples and discuss how patented MicroSkin pouches have helped many people lead lives without limitations. Certified wound and ostomy nurse Lisa Keyser, R.N., B.S.N., facilitates the group, which meets at 1 p.m. in Meeting Room C at Williamson Medical Center. There is no cost to join. For more information or to RSVP, contact Keyser at 615.435.5317.

Williamson Medical Center, a 185-bed hospital fully accredited by The Joint Commission, provides comprehensive inpatient and outpatient care including emergency services, with credentialed physicians in 53 specialties and sub-specialties. The community-focused hospital offers a wide range of wellness services, screenings and classes. For more information about Williamson Medical Center, visit www.williamsonmedicalcenter.org.
